

# DOTTORPRIMO

## ACNE CONTROL

### GEL IDRATANTE

ad azione riequilibrante e seboriparatrice  
con Vitamine Ce PP, acido ialuronico

### HYDRATING GEL

rebalancing and sebum-normalizing action  
with Vitamin C and PP, hyaluronic acid

Maintaining the correct moisture level and sebaceous production is an essential step for acneic skin, as well as proper cleansing. For this reason, it is essential that the treatment is targeted and that it provides a light, almost impalpable, yet extremely rich and effective product. Like Hydrating Gel - a fresh gel containing Hyaluronic Acid - formulated to help acneic skin regain its correct moisture level and balance\*.

Its light, velvety texture provides an immediate feeling of comfort, especially suitable for acneic skin even in the acute phase.

Enriched with anti-radical, anti-inflammatory and restorative Vitamins C and PP, Hydrating Gel boasts a formula designed to normalize the sebaceous production, reduce the presence of pimples and rebalance the skin tissue.

\* The clinical tests performed on a group of 20 panellists show an increase of skin moisturization (+8%) in just 28 days. Skin moisturization was evaluated by corneometer.

## THE ACTIVE INGREDIENT

### VITAMIN PP

It performs a revitalizing, anti-radical action. In addition, it improves skin smoothness, increases the thickness of the skin layer and helps the skin in its function of protecting against environmental stressors (barrier effect). Regular use on acneic skin has shown a powerful anti-inflammatory, restorative activity with an improvement and healing of blemishes in a short time.

### VITAMIN C

Vitamin C is a powerful natural antioxidant and is used in the treatment of oily and acne-prone skin by virtue of its calming action. By stimulating the production of collagen, elastin and substances responsible for the good seal of the skin, it counteracts the signs of sagging and skin aging. Furthermore, it has a positive effect on skin pigmentation.

### HYALURONIC ACID

Known for its highly moisturizing properties, it is a key component of the skin, which gives the skin strength and elasticity, while also improving its ability to repair damage.

### THE PRODUCT

Very light, refreshing gel, formulated to rebalance and moisturize acneic skin and normalize sebaceous production.

### INDICATIONS

Product for external use, for the treatment of acne-prone skin.

### HOW TO USE

After cleaning with 3in1 Cleanser, apply the gel and rub in until completely absorbed.

### WARNINGS

Keep out of reach of children.

Packaging  
30ml glass bottle. In a box.
