## EMERGIN 10

### CREMA PROTETTIVA ALL'OZONO

Per le parti intime

### PROTECTIVE OZONE CREAM

For the intimate area

Emergin 10 contains a combination of Neozone 4000, i.e. ozonized sunflower oil, and  $\alpha$ -bisabolol, indicated for the daily protection of male and female private parts. Neozone 4000 exerts a sanitizing and protective action on the microbial flora, by contrasting anomalies and respecting the natural environment of these delicate body areas. In vitro tests conducted on the main bacterial strains of the private parts' flora showed both a significant inhibition of the growth of candida and the respect of the intimate flora.

#### THE ACTIVE INGREDIENT

##### NEOZONE 4000 10%

Sunflower seed oil charged with ozone (4.000 meq/l). Its unquestionable antiseptic action is functionally combined with the stimulation of the repair and rebalancing activity of the epithelial tissue.

##### ALFA-BISABOLOL 1%

$\alpha$ -bisabolol is widely known for its soothing action.

##### 18- $\beta$ -GLYCYRRHETIC ACID 0,1%

This active ingredient, naturally found in liquorice root, is known for its anti-inflammatory activity, resembling that of cortisone derivatives.

## BLUEBERRY AND MARIGOLD EXTRACT

The soothing, anti-inflammatory and calming action is functional for restoring the balance of the intimate area.

### THE PRODUCT

The emulsified consistency allows a quick spreadability on the target area and a fast release of the active ingredients comprised in the cream. The acidic pH is orthodermic with respect to the physiological pH of intimate areas.

### INDICATIONS

The product is indicated as adjuvant in treating:

- Reddening of the private parts
- Irritation and itching of various kinds
- Dryness and dehydration of outer mucus membranes

### HOW TO USE

After a thorough cleansing, spread the proper amount of cream on the target areas; then perform a short massage.

Use morning and evening on a daily basis, for approx. a week. If needed, prolong the application.

### WARNINGS

- Keep away from heat sources and store at temperature lower than 30°C.
- Do not use in case of known hypersensitivity or allergy to the ingredients.
- Keep out of reach of children.
- Do not disperse in the environment after use.
- Do not use the product after the expiration date.
- Do not use on damaged skin.
- If the mucosa is irritated, the product may create mild burning sensations, that disappear within a short period of time.

Packaging  
30ml PE tube. In a box.
