DETERGENTE INTIMO ALL'OZONO

Detersione fisiologica e delicata delle parti intime

OZONE INTIMATE SOAP

Physiological and delicate cleansing wash for intimate area

For a mild and physiological intimate cleansing. Intimate soap performs a gentle and thorough cleansing, restores the physiological pH and is formulated for daily use on a notoriously delicate and sensitive skin tissue.

THE ACTIVE INGREDIENT

NEOZONE 4000 0.1%

Sunflower seed oil charged with ozone (4.000 meq/l). Its unquestionable antiseptic action is functionally combined with the stimulation of the repair and rebalancing activity of the epithelial tissue.

LAUROYL SARCOSINATO, COCOAMPHODIACETATE, BETAINE

They are natural cleansing substances, derived from renewable and biodegradable resources. These surfactants are simultaneously very effective, skin-compatible and extremely mild on the sensitive intimate skin.

ALOE VERA GEL

Extracted from Aloe leaves, it is a treasure trove of substances featuring multiple functions, e.g. a purifying and sanitizing action combined with a soothing and rebalancing effect.

CAMOMILE AND MARIGOLD EXTRACT

The soothing and calming action is functional to restoring the balance of the intimate area.

THE PRODUCT

An easy-to-rinse cleansing gel characterised by being dermatologically mild, very effective in its cleansing performance, featuring sanitizing properties and conceived for daily and prolonged use.

INDICATIONS

- For a physiological cleansing of intimate parts.
- To restore the proper acidity level.
- To exert a sanitizing action and prevent microbiological anomalies.

HOW TO USE

Damp the target areas and massage Emergyn Intimate Soap to form a soft foam. Leave it on for a couple of seconds, then rinse using plenty of water. For daily use.

WARNINGS

There are no specific contraindications under the normal conditions of use. Keep out of reach of children.

Packaging
100ml PE bottle. In a box.
