

DOTTOR PRIMO

EMERHAND

OZONE HAND SANITIZER GEL

With Antibacterial, Ozonized oil, Vitamin E and Aloe

A product formulated to perform a sanitizing and cleaning action, even without water, and a hydrating effect, to give the skin a velvety and soft touch.

The antibacterial formulation contains 70% Ethyl Alcohol and Ozonized oil, featuring sanitizing and protective properties.

The product is fine-tuned by Aloe Vera and Vitamin E, exerting a nourishing, moisturising and silkening action.

Being ideal for the daily use and for the whole family, Emerhand respects the skin hydrolipid film and offers protection, freshness and a pleasant “clean sensation”.

THE ACTIVE INGREDIENT

ETHYL ALCOHOL 70%

Ethyl Alcohol is one of the historically more widespread antiseptics and owes its effectiveness to its own nature. When coming into contact with bacteria and viruses as a solvent, it modifies the chemical structure of their proteins and enzymes and removes them. Its disinfecting action is particularly effective.

NEOZONE 4000

Neozone 4000 is Sunflower oil ozonized with 4.000 meq/l of added oxygen. In the amount included in the formulation, it sanitizes the epidermis and fosters the cell activity by means of “oxidative stress”.

VITAMIN E

It contrasts the free radicals by exerting an antioxidant action and helps in rebuilding the horny layer and improving the skin elasticity.

ALOE VERA

This succulent plant belonging to the Aloeaceae family is extremely rich in valuable substances: complex sugars, e.g. mucopolysaccharides, enzymes, lignines, saponines and phospholipids. These interact in synergy to bring about visible benefits on the skin: hydration, softness, fight against signs of ageing and brightness.

THE PRODUCT

A fresh and ultralight gel, formulated with an antibacterial and Ozonized oil, to exert a sanitizing, cleaning and protective action.

INDICATIONS

A product to sanitize the skin without water. For external use.

HOW TO USE

Pour some drops of product on the palm and rub very carefully (between the fingers too) until it dries. No water is needed.

WARNINGS

for external use only. In case of eye contact, rinse out with plenty of water.
Keep out of reach of children.
