## EMERSOAP

### OZONE CLEANSING HAND SOAP With ANTIBACTERIAL and Ozonized Oil

Liquid soap dedicated to the daily hand hygiene. Its gentle formulation cleanses the skin respecting its physiological hydro-lipid film.

The product is microbiologically tested and contains Ozonized Oil Neozone 4000 for effective protection from undesired agents.

The formula and the special selection of active ingredients allow Emersoap to be used frequently, which is ideal for the whole family.

#### TESTED EFFICACY

Its formulation is able to effectively reduce germs and bacteria\* present on the skin in a few seconds.

#### NATURAL ORIGIN

Over 90% of the raw materials are of natural origin.

#### DERMATOLOGICALLY TESTED

Suitable for all skin types and for frequent use. It does not contain chlorine, formaldehyde, parabens.

\* Tested on Staphylococcus Aureus, Pseudomonas Aeruginosa, Candida Albicans, Aspergillus Brasiliensis - contact time 120 seconds.

#### ACTIVE INGREDIENTS

##### TENSIDIC MICELLES

The primary micellar composition is anionic: this guarantees a perfectly dermo-compatible sanitizing, cleaning synergy, being balanced by superfatting, amphoteric substances.

##### NEOZONE 4000

Neozone 4000 is the ozonized sunflower oil with 4000 mEq/L of added oxygen. In the incorporated percentage it has the function of boosting cellular activity due to the effect of "oxidative stress".

#### ANTIBACTERIAL TECHNOLOGY

The skin is a real ecosystem that hosts microbes, viruses, bacteria and fungi. Together they are called skin microbiota. The Antibacterial Technology of Emersoap is able to intervene against potentially pathogenic species for the skin, avoiding harmful alterations of the microbiota, which could reduce the skin natural defense capabilities (barrier function).

#### GLYCERINE

Its chemical composition makes it able to bind water to itself, improving hydration, strengthening the skin hydro-lipid film and protecting it from external aggressions.

#### THE PRODUCT

Cleansing liquid soap with purifying action.

#### INDICATIONS

To wash and purify hands.

#### HOW TO USE

Wet your hands, apply the product and wash by rubbing your palm and back well, then rub your fingers and thumbs. Rinse and dry. The optimal process lasts 40-60 seconds.

#### WARNINGS

External use.

In case of contact with eyes, rinse thoroughly with water. Keep out of reach of children.
